

ZP-T7E BENCH SCALE (ENs version)

Introduction

Zemic T7E bench scale is reliable and compact scale for both commercial and industrial weighing in dry environment with wide range of applications. It takes up minimal space while providing accuracy and durability in working environments. Large screen window with 2 inch height highlight LED display provides excellent readability

Specification & Features:

- Max capacity: 30kg to 500kg
- Readability: 5g, 10g, 20g, 50g, 100g
- Approvable: OIML , Class 3
- Platform size: 40 x 50cm, 50 x 60cm, 60 x 80cm
- Loadcell: Zemic load cells / Aluminum
- Power supply: AC/DC with built-in rechargeable 6V/4AH battery
- Communication interface: RS232 interface with selectable baud rate
- Material: Rectangular pipe mild steel welding structure, with stainless steel cover and column (Φ30mm stainless-steel tube) for the indicator. Mechanical protection with 4 positioned overload stops.

Function and benefits:

- Excellent readability under any light condition thanks to a large LED display the real "big" eyes
- Six simple and intuitive to operate keys (On/Off, Zero, Tare, Clear, Print) plus two free definable function keys for easy set up and operation
- Peak value holding and average value function
- Auto/Manual accumulate
- Four grades battery indication, low power alarm and auto power off
- High-Low limits alarm function, with HIGH-OK-LOW indications
- Auto-sleep function
- Preset tare

Model, capacities:

Model-max capacity (kg)	Readability (g)	Platform size (cm)		
		40 x 50	50 x 60	60 x 80
ZP- T7E30	5, 10	X	x	X
ZP-T7E60	10, 20	X	x	X
ZP-T7E100	20, 50	X	x	X
ZP-T7E150	20, 50	x	x	X
ZP-T7E300	50, 100		x	X
ZP-T7E500	100, 200			X
