

MK231-S WASH-DOWN SCALE

- ❖ Combining durability and performance, MK231-S scales achieve wash-down weighing tasks in the most demanding food, pharmaceutical and industrial applications.
- ❖ IP65-rated loadcell, plus ABS cover for protection against water and dust enhance wash-down capabilities

Functions

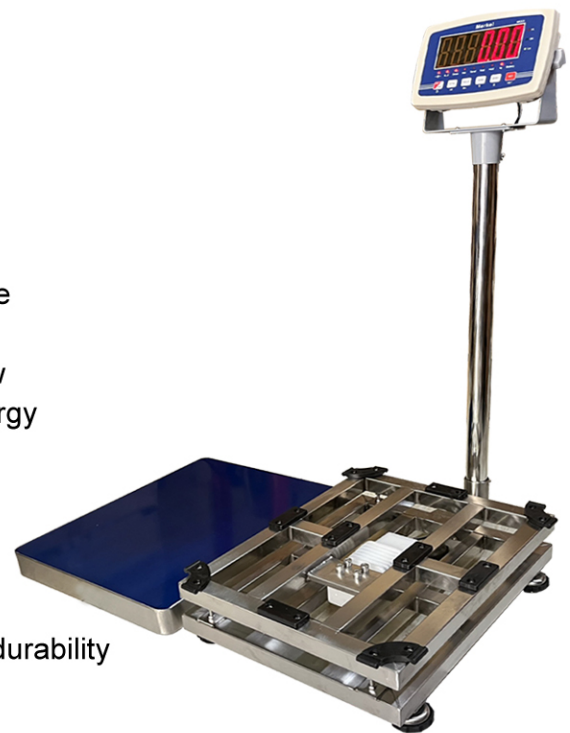

Features

Indicator:

- Display: 6 digit – 50mm height LCD/ LED with backlight
- Accuracy class: OIML (III)
- AD convert: Σ - Δ , 24 bit
- Resolving: display 15,000, internal code 1,000,000
- Communication: RS-232 interface is available to provide speedy connection to computers and printers
- Battery enduring life: 40 hours of continuously use allow operation almost anywhere, auto power-off to save energy

Platform

- Resolutions: 1/3000, 1/6000 , 1/10000 , 1/15000
- Aluminum single point load cell
- Large, stainless steel pan allows easy cleaning
- Rugged grade 304 stainless steel platform for ultimate durability
- 38.5mm diameter round pole, overload protection

Standard sizes and capacity:

Model	Platform size (mm)	Maximum weighing capacity (kg)			
		30	60	100	200
MK231-SS	300 x 400	30	60	100	
MK231-SM	400 x 500		60	100	200
Approvable readability		5g	10g	20g	50g
Min. capacity (approved scales only)		100g	200g	0.4kg	1.0kg
