

FLOOR SCALE (LP7620 SERI)

- ❖ This heavy duty floor scale is a fully electronic floor scale, suitable for all kind of weighing.
- ❖ Ideal for factory storages, logistic copanies, forwarders, shipping and receiving units,...
- ❖ Quick and easy connects with minimal installation and setup.

 Functions

Accumulate

Hold

Animal weighing

Checking

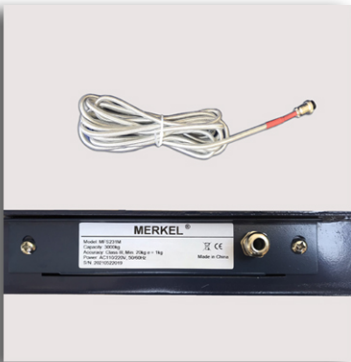

Sorting

Rechargeable battery

RS232

 Features
**Indicator:**

- Display: 6 digit – 50mm height LCD with backlight
- Accuracy class: OIML (III)
- AD convert: $\Sigma - \Delta$, 24 bit
- Resolving: display 15,000, internal code 1,000,000
- Communication: RS232
- Battery enduring life: 40 hours of continuously use

**Junction box & signal cable**

- Steel junction box Convenience maintenance
- Anti rat shielded signal cable

**Loadcell foot**

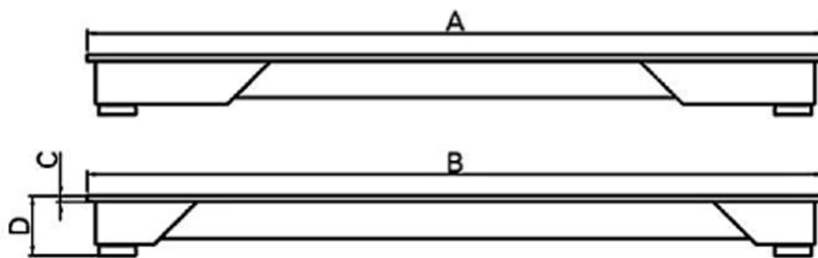

- Adjust the platform level
- Special structure to ensure weighing correct

Platform & loadcell

- Rugged NTEP approval industrial construction for heavy duty weighing
- Safety chequered plate to protect from slipping on the scale
- Powder coated finish
- 4 loadcells installed and calibrated, ready for use
- Overload protection
- Integral side and end guards protect loadcells from accidental side-impact damage
- Resolution: n = 3000

✓ Specifications

✓ LP7620 seri standard sizes and capacities:

Model	Platform size (m)	Maximum weighing capacity (kg)			Cable length
MFS231XS	0.8x0.8	600 kg	1.500 kg		5m
MFS231S	1.0x1.0	600 kg	1.500 kg	3.000 kg	
MFS231M	1.2x1.2	600 kg	1.500 kg	3.000 kg	
MFS231L	1.5x1.5	600 kg	1.500 kg	3.000 kg	
Approvable readability		0.1/0.2 kg	0.2/0.5 kg	0.5/1.0 kg	
Min. capacity (approved scales only)		4 kg	10 kg	20 kg
